Subject Fw: tributary emissions?

John:

Can you please respond to Ms. Robb? From what I can gather, KBIA did a story about UAA's and Trib to Perche Creek in Boone County and probably other tribs. I can't find the stories on the web.

Subject tributary emissions?

KBIA reported yesterday morning that the DNR will be looking into the possibility of permitting local industry to release their waste water into tributaries leading to the streams in Missouri; Surely, I misunderstood this report? Releasing industrial waste into our water supply...???? I cannot believe this is true and I am writing to check on the validity of this report...please contact me: Christina and Geroge Robb...Boone County mcrr@mchsi.com
